## **Rep. Mike Collins Nominates Community Christian School Senior for United States Air Force Academy**

Stockbridge, Georgia - January 24, 2024 - Community Christian School (CCS) is proud to announce that Rep. Mike Collins of Georgia's 10th Congressional District visited the school on Wednesday, January 24, for a special ceremony. During this event, a CCS senior, Corbyn Kennedy, son of Stephen Kennedy and Trisha Roman, was officially nominated for acceptance into the United States Air Force Academy.

Corbyn Kennedy marked this significant moment by signing a letter of intent to attend the Air Force Academy, becoming the fifth CCS student to receive a United States service academy appointment.

With over 90% of CCS graduates receiving either the HOPE or Zell Miller scholarship, the school has maintained a 100% college acceptance rate. Last year, the Class of 2023 earned an impressive \$4.5 million in college scholarship offers.

The Air Force Academy is consistently ranked in the Top 10 Colleges and Universities in America. Some notable rankings include:

- #7 in Best Undergraduate Engineering Programs
- #7 in National Liberal Arts Colleges
- #9 in Electronic Communications
- #2 in Top Public Schools

The value of an Air Force Academy education is estimated at more than \$416,000. This institution has a 12.4% acceptance rate, with over 11,500 students applying this year and only 1,400 receiving an appointment.

Community Christian School is honored to have its students recognized for their exceptional achievements and commitment to service. The entire CCS community congratulates Corbyn Kennedy on this momentous accomplishment and wishes him continued success.
